	Connect walle	et	Language	
	MetaMask	14 A	[‡] A English	\$
	WalletConnect	\$	🔅 Light	C Dark
	Coinbase Wallet	\bigcirc		
	Learn more about wa	llets		

2 – Explore the available offers :

	🔋 YAM E		Explore	e			Your Of	ffers		0x	6994a 🗸 🤅		
					T		RealToken YAI	M (You And M	e)				
Of	ffer ID		Offer Token			Buyer Token			Seller Address		Price/token	Available quantity	

Four different types of **offer** are available :

~	127	RealToken S 19201 Westphalia St Detroit MI	WXDAI RealT	0x001cb842959329d4dF037d4D49241528ab609c08	52.7000000000	0.9950000000	R

- Offer 127 is an **offer to sell** : RealToken Westphalia billable in WXDAI at the rate of 52.7 WXDAI for one RealToken Westphalia and for a maximum quantity of 0.995 RealToken Westphalia.

∨ 1	128	USDC RealT		Detroit MI	in comprision of	0x001cb842959329d4dF037d4D49241528ab60	9c08 0.0200000000	150.0000000000	R
		RealToken S 19201 Westphalia St							

- Offer 128 is an **offer to buy**: RealToken Westphalia, billable in USDC at the rate of 0.02 RealToken for one USDC (or conversely : 50 USDC per Westphalia) and for maximum quantity of 150 USDC (i.e. 3 RealToken).

130	WETH RealT	USDC RealT	0x001cb842959329d4dF037d4D49241528ab609c08	1.3000000000	0.1810740000	R

- Offer 130 is an **offer to exchange** « currency » : WETH against USDC, at the rate of 1.3 USDC for one WETH and for maximum quantity of 0.181 WETH.

RealToken S 9717 Everts St Detroit RealToken S 19201 Westphalia St Y 131 MI Detroit MI Detroit MI 0x69B3684C30E32729DF9d430Ef75477393e59694a 2.0000000000 1.000000000

- Offer 131 is an **offer to exchange** RealToken : Everts against Westphalia, at rate of 2 Westphalia for one Everts and for maximum quantity of 1 Everts.

Note: this last offer is not "buyable" (no shopping cart on the right), because the seller's address is the same as the one connected for the display: You can't buy your own offers....

At the bottom of the list, you can select the display mode of the list:

At the top of the list, you can: filter and sort each column:

👔 YAM	Explore	Your Off	ers	0x6994a 🗸

- the quantity of the purchase token in your wallet :	B WXDAIRealT 183
	Виу
Quantity, which you wish to purchase:	Quantity * 0.5 Max
	Transaction summary
A summary of the transaction (to make sure no mistakes are made (especially when buying an « offer to buy » i.e. you are	You will buy 0.5 REALTOKEN-S-19201-WESTPHALIA-ST- DETROIT-MI with a unit price of 52.7 WXDAIRealT and for a total of 26.35 WXDAIRealT
selling!)	Cancel Confirm

<u>Prerequisite</u>: You can only buy RealToken for which you are whitelisted. The whitelist procedure is on the RealT application, in the Portfolio section

Properties	
BUY SELL WHITELIST	
Current Whitelist Requests	SELECT PROPERTIES 0 Selected of 20 Max
ADD REQUEST	Select Previously whitelisted properties are not visible.

It takes a few days and is limited to 20 RealToken per week

 $\mathbf{4-Create}$ an offer: by clicking on "Your Offers", then "+ Add offers »

👔 yam		Explore	Your Offers	0x6
⊞ My offres	Private Offres + Add offers			

Depending on the type of offer you wish to make, the following information must be specified (via a list, for addresses)

	Offer to Sell of RealToken	Offer to Buy of RealToken	Offer Exchange of RealToken	Offer Exchange of \$ (*)
Jeton de vente :	RealToken	\$ (*)	RealToken V	\$ (*) V
Jeton d'achat :	\$ (*)	RealToken	RealToken A	\$ (*) A
Prix / Jeton :	\$/RealToken	Nb RealToken / \$	Realtoken A / V	\$(*) A/V
Quantité :	Nb max of RealToken	Nb max of \$	max of RealToken V	Max \$ (*) V

(*): USDC, WXDAI ou WETH, ici symbolised by \$

Unlike Swapcat, the RealToken addresses on YAM are validated, which avoids a source of fake Token fraud.

For a P2P exchange: you can check the "private offer" and specify the address of the person with whom you make this transaction. This offer will then be visible and purchasable only by him. To buy it, he will have to go to the "Private Offers" tab.

Token you want to sell	
3uyer Token Address *	
Price/token *	
Quantity *	
I want to create a private offer Buyer Address (only for private offers) *	
0x000000000000000000000000000000000000	

Note: You can indicate a quantity (maximum) of RealToken much higher than what you have at the time of the offer. The quantity that will be displayed in the offer list will automatically update with the quantity you have available (as long as it is less than the maximum, which you have indicated for this offer).

As long as the maximum is not reached, the offer remains active, even if you have no more of this RealToken. However, as soon as you have some, they will be automatically available for sale.

(This is a useful feature for liquidators or if you urgently need liquidity of RealTokens that have been put up for sale. In the latter case: RealTokens put up for sale can be collateralized on the RMM - to get urgent liquidity - they will then be removed from the sale ..but will automatically come back as soon as they leave the RMM)

5 – Update one of your offers :

To modify or delete one of your offers: go to the "My Offers" tab:

i My offres	+ Add offers						
		Rea	IToken YAM (You An	ıd Me)			
Offer 💌	Offer Token 🔹	Buyer Token	i 0	Price/token 🗘	Available quantity 🗘	Edit	Delete

		Update	Offer				
		Selected offer					
		Offer ID					
		Price/token 50.000000000					
		Quantity 0.0000000000			Delete	Offer	
		Price/token *			Selected offer to delete 69		
		Quantity *			Cancel	Conf	irm
		Quantity					
		Cancel	Confirm				

Note: RealT can also use the delete function in case of a corrupted address.

Test Environment :

This application (like the RMM), is developed by RealT in collaboration with its user community. For this purpose, RealT has set up in October 2022 a test environment with :

- a test version of the YAM, on the Goerli test blockchain: https://staging-yam.realtoken.network/
- a specific Telegram channel: <u>https://t.me/+ENPNiuYajY00ZjQ0</u>
- a Test Notice :
- https://docs.google.com/document/d/12TKvLMzkD8QB7yqvJx46y3XfjjsCmSoxaWTdAmXaFoI/edit
- and a Github to participate to the translation : <u>https://github.com/real-token/Translations</u>

If you want to participate to this co-development : you just have to fill the form (link in the Notice) so that RealT whitelist your test address and transfer you some RealToken and currency (for test !..)

Some actions, to start quickly:

- On MetaMask:
 - Create a new account dedicated to testing (it is this new address that you will indicate in the form for RealT): position yourself on this account.
 - Access the TestNet Goerli network: Settings > Advanced settings: activate "show test networks". TestNet Goerli should appear in the list of Metamask networks: position yourself on this network,
 - Import the RealToken and currency tokens, copying the addresses provided in the Notice (and reducing the token symbol to 11 characters),
- Go to one of the Goerli faucets, mentioned in the Notice, to get GoerliETH to pay the transaction fees. (I personally use this one <u>https://goerli-faucet.pk910.de/</u> : put your address, capcha, start mining, then after a while stop and claim an amount that will be a bit higher than what the other faucets give),
- Go to the Yam test application, connect with MetaMask on Goerli and your test account,
- and there you go, you can test for free without any risk !...
